Attn: Joseph Bonuso, Ph.D.,
Research Fellow and Founding Director

Dear Dr. Bonuso:

I read with great interest a description of the NYU LAW SOLOMON PROJECT from a recent publication. I would be interested in how I might find out more information about this project and whether or not this is being proposed or studied in any Florida institutions.

I would be very interested in a demonstration of SOLOMON and look forward to hearing at your convenience about any details of its use in the Southeast. It seems to be an intriguing concept.

Sincerely,
