Dear Dr Bonuso,

## "THE SOLOMON PROJECT"

I was most interested in the material sent to the publishers of this journal which has now been sent on to me. I would be interested in seeing more information and perhaps a demonstration disk, if one exists, of how the project works.

Clearly, if an artificial intelligence system is to be capable of making judgements, this will change some of the nature of law itself. It would also change the functions of the personnel involved in applying, arguing, and administering the law. It is these elements that would interest our journal most.

I look forward to hearing from you with further information.

Yours sincerely

Professor Avrom Sherr
